VOLUME 48

TO TEST SALT WATER SYSTEM

UNDERWRITERS' ENGINEER TO MAKE INSPECTION

Material Reductions in Insurance Rates May Follow.

pumping machinery has now all installed at the station at the foot of Heraid street for the high pres-sure salt water system to give addi-tional fire protection for Victoria; pre-liminary tests of the engines are now being conducted by Superintendent Hutcheson; and in about one week's time it is anticipated that the whole-sistem will be officially tested under system will be officially tested under the direction of a special engineer se the direction of a special engineer selected by the Vancouver Island board of fits underwriters. Great interest has been aroused over the matter in consequence of the expectation that should the system prove the success anticipated in respect to furnishing adequate fire-fighting facilities, ma-terial reductions in the insurance rates

terial reductions in the insurance rates will be given. G. V. Lawry, secretary of the board of underwriters, interviewed by the Emes this morning, said he appre-ciated the fact that the public was eagerly awaiting an announcement as o what reductions might be expected by the explained that until the official test of the salt water system had been made it would be quite impossible to mention any figure with any degree of definiteness. The board had, of course. for some weeks been holding meetings onsidering the question of reductions, considering the question of reductions, and had come to an understanding as to what recommendations will be made to the head offices, but these recommendations could not be forwarded until the system had been inspected by the special engineer who had been engaged for the purpose, and the same passed upon by the final authority in the matter of fixing insurance rates.

Mr. Lawry explained that as a result of the serious conflagrations which had overtaken the city in the residential district some two years ago, the rates had been increased 30 per cent. The district affected was bounded by Bay, Quadra, Humboldt streets and the

may be given will not extend to a larger area, owing to the general improvement in the fire-fighting facilities in the city.

The salt water system runs as follows: From the pumping station at the foot of Herald street to Blanchard; the foot of Herald street to Blanchard; the foot of Herald street to Blanchard; the Supreme Court, which makes the necessary changes which follow the necessary changes which follow the creation of the Court of Appeal, is proclaimed in effect.

Electric Railway Company's system,

C. Electric Railway Company's system, the city having extended along Store to make the connection.

A report has been prepared by the Vancouver Island Fire Underwriters' Association on the improvements made to the water system and the fire deat of the city, in which it is

TRADE COMMISSIONERS INSPECT FACTORIES

Japanese Visitors Meet Members of Seattle Chamber of Commerce.

(Times Leased Wire.)

Seattle Wash. Sept. 3.—The visiting Japanese trade commissioners began this morning an inspection of the facwhich will last the greater part of the day. The first place to be visited was the brewery in Georgetown and the condensed milk plant at Kent.

A conference between the Japanese commissioners and the representatives

of the chamber of commerce was held in the rooms of the latter last night at which tentative plans for the carrying out of the itinerary of the visitors in the United States was discussed The meeting was productive of much enturing the commercial delegates, volced the prevailed, Baron Shibusawa, chairman of the commercial delegates, volced the sentiment of his countrymen when he predicted that trade between Japan and the United States would increase stead-ily and made the positive declaration that whenever an article needed in Japan could be bought in the United States at the same price as elsewhere, this country would be favored, he expressed the hope that this country would act in a like manner in the matter of imports from Japan,

MONTREAL'S LOSSES.

City Treasurer Gives Evidence Before the Royal Commission.

Montreal. Sept. 3.—City Treasurer William Robb was on the stand before the Royal Commission yesterday afternoon and made an interesting and most outspoken witness. He told Judge Cannon of hundreds of thous, ands of dollars the city was losing annually through poor methods of collecting taxes and failure to collect, of patronage and its abuses, placing the total loss at we'' war a million dollars a year.

Spin B. Baldwin, the celebrated explorer or an interview to-day with the completely through the northern ocean, come out somewhere between the northeast coast of Greenland and Spitzbergen and make, side trips in dirigible balloons.

"We seek specimens and records for meteorological observations, and we expect to find land west of Crocker game was plentiful, and also to encounter such a smooth surface to within five degrees of the pole. The will be soon hailed as the first expedience of the brave little Eskimos

BALDWIN ORGANIZING ARCTIC EXPEDITION

Says Cook's Discovery Will Give Stimulus to Exploration.

New York, Sept. 2.—That the discovery of the North Pole and the probable discovery of the South Pole in the near future will result in a great stimulus to Arctic explorations, and a rush of students and scientists to the polar regions is the firm belief to-day of Everyn B. Baldwin, the celebrated explorer and meteorologist.

In an interview to-day with the

was also of great value to Dr. Cook. and they cannot be given too

"The scepticism being manifested regarding Dr. Cook's wonderful feat of travelling 500 miles in 25 days is not well founded, as it not only was possible, but was very probable under favorable circumstances.

"I think the finding of the South Pole," continued Dr. Baldwin, "will be much easier because there is a continuent around there and the loc therefore will be stationary while the Arctic

WILL DEFEND FLAG AT NORTH

VICTORIA, B. C., PRIDAY, SEPTEMBER 3, 1909.

UNITED STATES TO TAKE LAND IF OF ANY VALUE

Danish Government Plans Royal Welcome to Dr. Cook.

Copenhagen, Sept. 3. Late this afternoon Dr. Maurice Francis Egan, American minister at Copenhagen, on board the yacht New Yorker, met the steamer Hans Egede and with a wave of his hat, gave the first greeting from the American people to Dr. Frederick A. Cook, discoverer of the North Pole, who was standing on the deck of the steamer.

The yacht bore the flag of the American republic which planted at the northernmost point of the globe, and it was a welcome sight to the eyes of the explorer after his long and perilous trip through the desolate regions of ice. In deference to the wishes of the Danish government, which had requested that Dr. Cook be allowed to land under the Danish colors flying from the masthead of the Hans Egede, Dr. Egan abandoned his tentative plan to transfer Cook to the yacht so that he might land under the stars and

New York, Sept. 3.-That the flag planted by Dr. Cook on the new Arctic United States was the opinion expressed by Attorney-General Wickersham at Lawrence Beach, L. I., his summer

The constit home to-day.

"The constitution will follow the flag if the new land discovered by Cook proves to be of any value," said Mr. Wickersham. "The new territory may perhaps, not prove a pers valuable acquisition, but if humap beings can live there or if there are native races living there, a serious question of citizenship, will have to be considered. Howship will have to be considered, How-ever, before taking any position in the matter, I prefer to wait for informaa little more definite charac

Washington, D. C., Sept. 2.—Dr. Han-nis Taylor, an authority on inter-national law, stated to-day that in his opinion the United States could now nake claim to the ownership of the North Pole by right of Dr. Cook's dis-

While he admits that such a move would be without precedent until the discovery has been actually verified, he also is of the opinion that the prin-ciples recognized in the discovery of land could now be applied permanently to the ice fields.

to the ice fields.

When assured whether the United States would lay claim to the 35,000 square miles of land that Dr. Cook claims to have discovered near the pole, Assistant Secretary of State Adee

"This question will undoubtedly come up later before the law officers of the department, Whether or not this government will care to lay claim to

the snow and icebound region in the vicinity of the pole is a question."

Preparing to Welcome Cook. Copenhagen, Sept, 3.—Delighted at having the first opportunity to do honor to Dr. Frederick A. Cook, the courageous American, who succeeded in reaching the North Pole, where hundreds of others had failed, the Danish government is planning a royal elcome for the hardy explorer when

Completely entwined in American and Danish flags, the torpedo boat Juliand left kere this morning to meet the Egede, and will escort the vessel to Elsinor. On the Royal Geographical Society's boat will be Dr. Egan, a famous scientist, and M. G. Melchion, who will welcome Dr. Cook to Danish soil in behalf of the government.

The exact time of the arrival of the explorer here is not known, but he is expected to reach here some time to

expected to reach here some time to To-morrow he will be presented to

the King and Queen, and to-morrow night he will be tendered a monster banquet, which will be attended by the high officials of the government There is no skepticism here regarding the authenticity of Dr. Cook's discov-

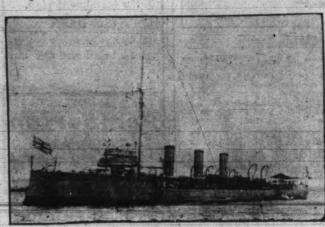

cry.
Capt. Hansen, a wealthy expert of the meteorological institute, who has lived in the Arctic seas the year around making observations, declared to-day that his observations coincided exactly with those of Dr. Cook's regarding the weather, ice and trails.

Expedition Cost \$50,000.

he did not have time to compute the altitude.

"At that time Dr. Cook was alone, too. He had gone with the expedition that falled in their attempt to scale the mountain. When they left Dr. Cook was left in charge of the supplies.

"The party had hardly reached the east when the news came that Dr. Cook had made a successful ascent of the mountain, but for me to say anything at this time might be construed as bad taste. I do feel loyal to my husband and feel that he will bring the pole back with him. If he does, then it is for him to talk of this report, for he could either prove or disprove it. Chicago, Sept. 3.—P. G. Bradley, a brother of John Bradley, who financed the Cook exploration expedition, an-nounced that it had cost his brother \$50,000 for the explorer to discover the

The 25-Knot Scout on Which Explosives Have Been Found.

MRS. PEARY SATIRIC OVER COOK'S REPORT

Reminds Public of Explorer's Airy Story of Ascent of Mount McKinley.

South Harpswell, Maine, Sept. 3.—
Mrs. Peary, wife of the noted Arctic
explorer, was satiric regarding Dr.
Cook's discovery of the North Pole
when interviewed to-day at her summer home on Eagle Island, She said;
"I have been expecting to hear that
report ever since I knew Dr. Cook had
started for the pole, It has been a
standing joke at the 'explorers' club,
and in our set in New York, But please
do not quote me as being incredulous
over the report, It would look too ugly
coming just at this time.

"After all, I can only say that it is
a greater surprise to me that Dr. Cook
was able, alone with but two Eskimo
boys, to accomplish in so short a time

was able, alone with but two Eskimo of the hotel will meet them in vanboys, to accomplish in so short a time of the trip across the straits so that there ence and better equipment have failed in doing, I am sorry that Dr. Cook has wrested the honor of discovering the pole from my husband, but I congratulate him.

The tally-hos, instead of meeting the party at the wharf, will in all probparty at the wharf, will in all probability call for them at the Empress hotel about an hour after the arrival

The lower part of Torreon is directly in the path of the flood. The city of Tula, a city of 9,000 inhabitants, in the atate of Tamalpais, has been destroyed.

PATHETIC SCENE ON CITY OF PUEBLA

Walter Walker, Just Returned From San Francisco, Saw Defalcator Arrested.

Walter Walker, the official measur ng surveyor for the Dominion gov-rnment, returned yesterday from a, Francisco, where he has been suroying the ship Drummuir for the pur Lose of readmitting her to British registry. This ship, with the British-Yeoman, which was also registered at Victoria a short time ago, will add bout 3,500 tons to the already large onnage of the port.

tonisge of the port.

Mr. Walker went south on the steamer City of Puebla, and just before the steamer tied up at San Francisco a pathetic scene was enacted before the eyes of all the passengers. The man Flood, who was wanted for defalcations in the administrator's office at Cakland, was on board, the steamer Cations in the administrator's once at Oakland, was on board the steamer with his wife. He had told her nothing of his difficulties, and when the detectives came aboard to arrest him the scene was such as to bring tears to the eyes of the most hardened. He was taken in charge by the police and ERNA TIED UP. was taken in charge of the bound and photographed by a newspaper artist as he stepped off the gang-plank. Since that he has confessed to a number of defaications amounting in all to-something like \$10,000.

When the steamer entered the nar-bor the patrol steamer with the police aboard was steaming around, and seemed to keep close to the Puebla, making the passengers wonder who it, was on board that was wanted. In Berkeley, Mr. Walker met Mrs. Capt. Cox, who is expected home this week from visiting her daughter, Mrs. Everic Captain Ferris, her son-in-law,

Unlan won the second heat and the race from Hamburg Belle this afternoon. Time, 2.032.

DISCOVERED THE POLE

Declares He Has Positive Proof to Substantiate His Claim-Found Thirty Thousand Square Miles of Land.

(Times Leased Wire.) Copenhagen, Sept. 3.—Dr. Frederick A. Cook, the American explorer, was interviewed late this afternoon on board the Danish steamer Hans Egede by a correspondent of the National Tiedende, who boarded the vessel at

"On the return trip we continued to bear westward. For a fortnight after our start back we continued to make observations. We made no measurements of the sea and have no idea of its depth. We did not have the proper lestruments.

Tiedende, who boarded the vessel at Suagerack.

The correspondent sent the following wireless message to his paper:

"Dr. Cook has positive proof to his elaim that he has discovered the North Pole, according to his statement made to me. He said:

"I do not consider my planting the flag at the pole my greatest achievement. The greatest act that I performed was to discover the thirty thousand square miles of land which will open up an entirely new field of exploration and research.

ation and research.

"Pressed for data concerning his two days" stay at the pole, and impressed with the fact that some proof of his statement was needed, the explorer

said:

"I reached the pole shortly before 7 to clock on the morning of April 21st. With me were only two Eskimo companions, and we had been making daily observations for two weeks, and knew accurately our position.

"It did not detract from the thrill that we experienced when the sextant revealed that we were standing in latitude 90.

"We had been bound northward all story above its scientific value."

ALLEGED SWINDLERS COMMITTED FOR TRIAL

Two Seattle Men, Charged With Fraud, Have Prelim-

inary Hearing. (Times Leased Wire.)

(Times Leased Wire.)

Vancouver, Sept. 2.—H. Overion and J. W. Stanton, Seattle men charged with defrauding Lars' Olson, of Bellingham, Wash, a retired farmer, out of \$390 and a cheque for \$5,000, had a preliminary hearing this morning and were committed for trial at the High dourt in October.

Olson claimed that all through the afternoon when the men are alreged to have fleeced tim he was under some magnetic or hypnotic power and they controlled his will, making him bet his money and write out the \$5,000 cheque. Time and time again he felt something was wrong, but a mystic power held, him there, and it was only when on board the steamer for Bellingham that night that he came to, and then, as he stated. "If felt worse than had I committed murder." He claims he did not want to make any money by betting and had never before in his life, but was forced to do it.

CHANDLER'S STANDING.

H. Kent, of Vancouver, Explains That Offence Was Not Wittingly Committed.

H. Kent, of Vancouver, secretary of the U. P. A. A. O., and one of the greatest friends of amateur sport on the coast, is in the city. He explains the stand taken by the B. C. Amateur Association in the matter of Chandler being reinstated as an amateur. He says that Chandler acted innocently. He had no intention of violating the rules the committee felt sure.

The \$135 paid, which constituted the offence, was not appropriated by Chandler directly. It was paid over to one who took Chandler's place at work

one who took Chandler's place at work

MAINTENANCE OF **NAVAL SUPREMACY**

SIR WILLIAM WHITE

SPEAKS AT WINNIPEG

Declares the Recent Scare Was Unnecessary and Undignified.

naintaining naval supremacy hat it is now time for these Dominions country from this burden, was the contention of Sir William White, K. C. B., F. R. S., in an address before the members of the Canadian Club yester-day afternoon. Sir William refused to discuss the manner in which the Dominions should assist the mother countries in the building up of an effective. mions should assist the mother country in the building up of an effective navy, but his inference was plain, for he clearly outlined the reasons why a navy must be centrally controlled for efficiency both in time of peace and in time of war.

Sir William White is an authority of this white?

Sir William White is an autority on this subject, having been for many years director of naval construction and assistant controller of the royal navy, during which time he was responsible designer of all his Majesty's ships. He said in part:

"The Winnipeg club, of which I am a guest, was one of the first at the time of the recent German scare to press

of the recent German scare to press upon the Dominion government the policy of active co-operation with the

perial naval defence.

"That scare was unnecessary and undignified and contrary to national character. Our present position is secure and will be so for the next three years. Our war and shipbuildresources may be readily made

"Supremacy at sea is vital to the well-being and existence of the British Empire, and must be maintained at all cost. British supremacy of sea is the security of oversea commerce and communication, and inwere and communication, and in-vokes no monopoly or exclusion of other nations. Our policy is an open ocean where the peaceful trader and the swift passenger steamer can come and go in security, thus promoting the intercourse and friendliness of all nations of the world. 'No other empire has been based on

nations of the world.

"No other empire has been based on or maintained by command of the sea. Consequently our claim to supremacy is not unjust or unreasonable as some assert. Indeed, it is admitted to be well founded by all the greatest authorities of all nations.

"We are supreme at present, and we over the command of the search of the command of we owe that position primarily to the sacrifices, courage and foresight of our ancestors, who were willing to

our ancestors, who were willing to pay and paid a high price in life and treasure for that proud position, "Our supremacy has been chal-lenged again and yet again, and some times seemed in peril. In my own recollection there have been two great crises, one when iron-clad reconstruc-tion began and France took a lead-

tion began and France took a lead under the inspiration of Napoleon III., and about twenty years ago when France and Russia, by their combined efforts, threatened to surpass us in naval strength.

"On each occasion the strong sense and patriotic feeling of the British and patriotic freiling of the British people, aided and stimulated by the press, led to action, which made the Empire safe. For more than twenty years we have been at war, financially, with European countries desirous of emulating our naval position. Greatoutlay has been involved, and it has been practically wholly borne by the citizens of the United Kingdom."

Sir William White then gave figures to bear out this statement, and showed how it had been his lot to bear a

Admiral Beresford Speaks. Admiral Beresford Speaks.

Toronto, Sept. 3.—Lord Charles
Beresford yesterday afternoon addressed some six hundred members of
the Canadian Club on two important
factors of the Imperial question—trade
relation and Imperial defence. Lord
Charles had a most enthusiastic reception and sympathetic hearing and was
cheered again and again, not only by cheered again and again, not only by the crowd that assembled in the street to catch a glimpse of the old sea dog as he departed.

Vancouver. Sept. 2.—A Japanese named Junichi Avo was fatally wound-ed to-day at Steveston by a bullet free by another Jap fisherman. There was a general fight in the Japanese quarter er a gambling game.

AMUNDSEN WILL GO

TO ARCTIC REGIONS

Says Cook's Discovery of the North Pole Will Not Affect. His Plans.

Chicago, Sept. 3.—A special cable message to the News from Christiana says that Raeld Amundsen, when seen at his home yesterday said that the achievement of Dr. Cook would not affect his plans for an Arctic expedition. He spent the years of 1897 and 1898 in Cook's company on an expedition, and said that if any one could find the Pole it would be Cook. He said that the American is courageous and practical and an experienced Arctic explorer. Amundsen said that his expedition will

RELATIONS BETWEEN JAPAN AND STATES

Ambassador Sees No Difficulty in Way of Renewal of Present Treaty.

Tokio, Sept. 3.—Baron Kogore Takahira, Japanese ambassador to Washington, arrived here yesterday. In an interview he stated that the American sentiment throughout the United States is the friendliest toward the subjects of the Emperor and that he sees no difficulties in the way of a renewal of the present treaty existing between the two countries.

Ex-Minister of Education Makino, who formerly was ambassador to Austria, will probably be Takahira's successor, but it is uncertain whether or

cessor, but it is uncertain whether or not he will be appointed to the diplo-matic position. Makino is popular and

not he will be appointed to the diplo-matte position. Makino is popular and is well liked at the capital. Takahira was given a rousing wel-come by the populace when he arrived at Shimbashi station.

INVENTOR CRUSHED

BY MONOPLANE

Machine Falls to Ground During Experiments at San Leandro.

San Leandro, Cal., Sept. 3.—Joseph Bettancourt is suffering from injuries received when a monopiane of his own invention crashed to the ground and pinned him underneath the wreckage. John Driver, his companion, was slightly scratched when the marchine struck the earth. Driver was in the monopiane when the accident occurred.

The two men were experimenting

The two men were experimenting above the Foot Hill boulevard, Driver above the Foot Hill boulevard, Driver had launched the monoplane from the top of an incline while Bettancourt stood below watching the flight, Suddenly the machine swerved downward and caught Bettancourt full in the chest, knocking him down and seriously injuring him on the left side. The machine was narity demoliphed nachine was partly demolished.

RAILWAYS FIGHTING FOR RIGHT OF WAY

Hill and Harriman Interests Continue Battle in Southern Oregon.

Madras, Ore., Sept. 2.—It has just be-come known here that Porter Brothers worked another coup on the Harriman-railway interests by placing a force of forty men with teams and equipment at Trail crossing over the Crooked river. The crew is divided into two pare one working on each side of the river. The surveys of the Oregon trunk and the Deschutes railroad (Harriman's) cross Crooked river at almost identically the same place. This manoeuvre on the part of the Porter Brothers shows that the strategic advantage of this crosing will be against the Harriman road and the battle which was commenced in the battle which was commenced in the Deschutes canyon, will be waged across the state of California, at Trail crossing, coupled with the sending of a large crew of engineers last week to work south of Bend, without question indicates that the Oregon trunk line has an objective point on San Francisco bay.

THREE RUNAWAY GIRLS.

Tramp Ninety-Three Miles After Making Escape From Convent.

San Francisco, Cal., Sept. 3.—After tramping 33 miles in three days, begging their food from farmers' wives and sleeping in hay stacks, three 16-year-oid girls who escaped from the Holy Cross convent at Santa Cruz are being held at the detention home here. They psobably will be returned to Santa Cruz.

The young women, who are Sept.

They psobably will be returned to Santa Cruz.

The young women, who are San Francisco girls, are Alice Sheridan, Nellie Hoeckie and Margaret Weickerle, and they took the trip because they wanted to see San Francisco again. The Sheridan girl headed the party and planned the escape from the convent. When the sisters of the institution had retired on Saturday night the trio stealthily left the dormitory, climbed over the convent walls and struck out north on foot. After tramping five miles they slept under a tree for the remainder of the night. With morning they plodded on a number of miles until they arrived at a farm house where they begged for a cup of coffee. After a meagre breakfast they walked on and at nightfall had covered forty miles of the distance.

INDIAN RESERVE UP THIS EVENING

SPECIAL MEETING OF CITY COUNCIL CALLED

City Barrister Asked for Advice as to Request of Gov-

A special meeting of the city council has been summoned for this evening prior to the regular weekly meeting of the streets committee to take into consideration the Songhees Indian reserve question which has again come to the fore owing to the receipt of a letter from Mr. Pedley, of the Indian department, asking the city to obtain from the provincial government consent to the transference to the Dominion the reversionary rights in the reserve, which were conferred upon the city. The letter was referred at last week' ineeting of the council to the city bar rister for report, and Mr. Taylor is ex-pected to be present at this evening's meeting and give the council the ben-efit of his advice.

white he is disposed to be guided by the opinion of the city barister, Ald. Henderson has his doubts about the wisdom of the city consenting to do as proposed by the federal authorities. He does not see how a settlement of vexed question can be expedited by the

vexed question can be expedited by the proposition being agreed to and wants more light upon the matter.

Mr. Pedley in his communication endeavored to make plain that now because of the city possessing reversionary rights to a part of the reserve this constituted a division of interest in the land, and the federal authorities felt embarrassed in conducting their nego-tiations with the Indians because of that fact. It was felt that if the Do-minion government had the whole matter in its hands they could approach the Indians with greater chances of a settlement being arrived at.

In city itali circles the opinion pre-vails that the receipt of the letter im-

plies a disposition on the part of the Dominion government to lose no time in attempting to arrive at a final settle-ment with the Indians. It is a metment with the indiana it is a mar-ter of common knowledge that Hon. Wm, Templeman, Hon. Sydney Fisher and Hon. Wm. Pugsley, during their and Hon. Wm. Pugsley, during their recent visits to Victoria, expressed the opinion that the problem of the Songhees reserve was becoming intolerable. The board of trade called the attention of Hon. Mr. Pugsley to the matter and the latter promised to do what he could about the question on his return to Ottawa, and as he has been back at the capital for some weeks it is feit that roughly Mr. Padley's letter to a

It will be recalled also that during the speech by Hon. Mr. Fisher before the Liberal Association a few days ago that gentleman said that the reserve ought not to be allowed to longer interfere with the growth of the city. Mr. Pedley, the writer of the letter which is now before the council, is superintendent of Indian affairs, and spent some weeks in Victoria a few years ago in an attempt to arrive at a settlement with the Indians and made considerable progress in that direction, until a hitch put a stop to the negotiations. Mr. Pedley is therefore fully in-formed about the situation.

-Dr. Drysdale, of Nanaimo, who has been in the Royal Jubilee hospital undergoing treatment for two days for a stift shoulder joint, left that institution to-day. He and Mrs. Drysdale and their little daughter will spend several days in the city

-Building permits are each day be-Building permits are each day being issued for a number of new residences, indicating that the busy season for carpenters is likely to extend well into the fall, and that there is no cessation of Victoria's rapid development. Permits have just been issued as follows: To F. W. G. Baylis, for a frame residence on Robertson street, to cost \$2,500; D. H. Bale, contractor. To R. M. Sanborn, for a fram building on Fell street, to cost \$2,500. For this also D. H. Bale is the contractor. To Wm. Turpel, who will erect a dwelling on King's road to cost \$1,500, and to David Brown for additions to his dwelling to cost \$300.

A Representative Showing of Men's New Fall Wearing **Apparel** Here

There are several reasons why you should purchase your Fall Clothing here, and chief among them are the high quality materials they are made of, while the tailoring, cut and finish could not be surpassed. Last, but not least, is the way they hold their shape. This fact is attributed to every bit of material entering into their construction being thoroughly shrunken before the patterns are cut. Every suit carried in stock by us is hand-tailored and up-tothe-minute, in every sense representing the world's best as to fit, style, finish and value, the materials being from the world's foremost manufacturers at prices ranging from \$18 to \$30.

Also a large range of Workingmen's Suits ranging in price from \$12.50.

Boy's Clothing--The Kind That Will Wear Well

Our stock of Boys' Clothing for school wear will satisfy and please any parent to such an extent that it would be mere fallacy to leave the store without purchasing. The kind of Boys' Clothing we keep are made to withstand all the hard usages which are to be expected while the little fellow is attending school. Aside from this important fact, you will find the workmanship and style strictly up to the mark, while our constant aim is to keep prices (notwithstanding high quality) such as to allow the most modest purse to participate. EXPERT DEALS WITH ART OF ROAD-MAKING

Major Shepherd Lectures Before Small Audience at City Hall.

Considering the importance of the ubject, a regretably small audience assembled at the city hall last evening, when Major Shepherd, lecturer at the MacDonald College of Ste. Anne de Bellevue, near Montreal, spoke on the subject of road-making. Victoria, Major Shepherd believes, will always be the home of wealthy people attracted here by the climatic advantages and eautiful surroundings; and the othing therefore more important ood streets and roads. It is his ion that asphalt, properly laid, is the best roadway even for heavy traffic and he instanced the great amount of this style of payement.

this style of pavement which is being aid in Eastern cities,
Mayor Hall presided and other representatives of the city present were Adermen Henderson, Turner, Mc-Keown and Bishop and City Engineer

Topp. General regret was expressed that the audience was so small.

Major Shepherd confined his remarks to the importance to a municipality having good roads. In cities with orhaving good roads. In cities with organized staffs and engineers the presence of lecturers such as himsel; was
unnecessary, but in country municipalities, where no such provision is
made, it was of great importance that
some one who has made a study of
roadmaking sould be got to go into
the subject and give facts for the
guidance of those municipalities.
Referring to the early days of the
good roads' movement, he cited the indifference which greeted the efforts of

good roads movement, he cited the in-difference which greeted the efforts of those who were working for improved conditions. He had no doubt that in Victoria the council and the city engineer are continually being criticized by those whose actual knowledge of by those whose actual knowledge of the subject is practically nil. During his brief stay in Victoria he had ob-served some roads covered with stones from macadam giving a decidedly bad impression to visitors. Other roads there are which with a little time and triffing expense could be graded and improved. Then the dust nuisance might be abated by the use of oil, or at least some experiment should be made to ascertain what system, if any, can be applied here to remedy this

Referring to the question of the best The city treasurer's staff has for some time been busily engaged getting out the annual tax notices and most of the East, owing to lack of suitable ma-

The macadam pavements here, he understood, were not laid on proper foundations, and even a good macadam road is not suited to heavy traffic, The manager of the Home for Aged and Is not suited to heavy tradic, and Infirm acknowledges with thanks the following donations for the month of August: Mrs. B. W. Pearse, Illustrated London News and hat; Mrs. L. J. Quagliotti, San Francisco papers; Mrs. Reade, Lloyd's Weekly; Mrs. H. D. At the conclusion of the address, Which was much appreciated by those

will give a recital of her own compositions, which have won her world wide fame. Miss Johnson's poems are too well known to literary people to require any comment. In one of her great dramatic compositions, which she that his branches require much more attention than was former; the contraction of the contraction of

—In the police court next week the information laid against the Fairview Greenhouses, IRd., by the department of agriculture will be heard, R. C. Lowe prosecuting. will notice in the Provincial Gazette.

The people of this city, and in f. all those living in the southern secth of Vancouver Island, have been and lous to see the work go forward much quicker than it has been progressing. The work has gone forward very slowly. It is hoped that when the new contract is let it will be insisted that the construction shall be more expeditiously carried out.

The city is calling for tenders for steel pipe for use in the extension of the distribution system. The Mannessmann weldless steel tubes are favored by a special committee of the council named to investigate the various samples submitted. The contract calls for 2,500 feet of twelve-inch pipe; 15,000 feet of twelve-inch pipe; 15,000 feet of eight-inch; 20,000 feet of sixinch, and must be delivered in thirty-foot lengths, covered with jute and double-coated, inside and out, with a sphalt solution. Delivery must be nade by March 15th next, and tenders just be in by 4 p. m. on Monday. Oct.

While the sample of steel the was, submitted came by it is understoody. double-coated, inside and out, with asphalt solution. Delivery must be made by March 18th next, and tenders provincial company, must be in by 4 p, m on Monday, Oct. 11th. While the sample of steel pipe which was submitted came from Germany it is understood that the same class is now being manufactured in Great Britain.

The Smith Calmery and the company pany has been registered as an extra provincial company.

The following appointments have been made:

Glenn Andrew Passmore, of Michel, to be a justice of the peace for the province of British Columbia.

Joseph Francis Rudnicki, of the city

OPEN TO PUBLIC

Popular Recreation Place Benins Season Under New Management.

The season for skating, the favorite pastime of many hundred Victorians, has opened and the rattling of skates on the Assembly rink floor is what a passer-by hears every afternoon and

on the first evening the rink was opened and the skates turned loose after a summer's rest, there was a record breaking crowd present and indications go to show that skating will be more popular this season than on previous ones. The manager, H. A. Fredericks is determined to run the rink in the best of style. He intends to promote indoor athletics to a greater vicent than they have been in former The sport programme for the Y. M. C. A. Labor Day excursion has been prepared by the committee chosen for that work. The list, which includes a number of good races, will be run off on the exhibition grounds at Ganges harbor, where the outing is to be held.

All arrangements are now well under

LAWN TENNIS.

LARNED VS. CLOTHIER.

The championship tennis match between William A. Larned and W. J. Clothier played at Newport, R. I., last Monday was exceedingly interesting. Notwithstanding the fact that they have both been prominent candidates for premier tennis honors for a number of years, as it happens Larned and Clothier had never before clashed in the crucial challenge context for the championship, and their meeting in this respect was the more interesting.

The element of uncertainty so pro-

respect was the more interesting.

The element of uncertainty so pronounced when the far western cracks were immediately concerned in the outcome of a match, because the strength and fashion of their game, were a comparatively unknown quantity among castern players, was reduced at today's fray to the fundamental question of which should prove the stronger and more resourceful player, for each man knew the other's game like a book. Not infrequently they had met in practice and in tournament encounin practice and in tournament encour

Larned's victory stood at the finish. 6-1, 6-2, 5-7, 1-6, 6-1.

roughness has been staged before un-der the name of sport. Ju jitsu makes any other kind of wrestling look tame. Nothing is barred. At the end of the second bout, Robinson, the white man, was carried from the mat. Ito lost a couple of teeth in the melee, but he had won, and the Japanese who crowded

with the heel of his hand. In the second bout, ito received a severe gash over the left eye from which the blood spurted over the mat and over his white adversary. The first bout was ended when the Jap got a strangle hold, using Reminson's neck cloth as a tourniquet and slowly 'forcing the American into submission by the process of strangulation. The time was 10 minutes 55 seconds.

The second bout lasted three minutes. Ito jumped at Robinson savagely when they came together, and they went down in a second. Again

they went down in a second. Again the Jap tied on the tourniquet and Robinson's face turned red and then black. He was helped to his corner and in spite of the viclous fight they had gone through the Japanese was the first to assist Robinson.

Charley Olson, the light heavyweight champion wrestler, announced his willingness to meet the Jap at his own game. Robinson also wants a return match. He admits he was out of condition.

The Fashion Show for Men

Fall and Winter Season

The freedom of our store is extended to every man just to come and see what is correct in Fabric and Fashion for the Fall and Winter

Whether you wish to buy now, or intend to buy here or elsewhere, the new designs in Semi-ready Tailoring will make you au fait in the prevailing modes.

The best fabrics from the most famous looms of England are shown.

Expensive? 'Tis the only argument now advanced against Semi-ready by rivals. But when you consider that Semi-ready hand-tailored clothes are better made, better finished, and fit better than custom tailoring, there is no argument.

May we show you? We shall be glad.

SHIP BURGLARS' SPEEDY TRIAL

LIGHTNING JUSTICE AT NORTHERN CENTRE

St. Denis Brings Details of Robbery and Conviction of Criminals.

Steamer St. Denis, of the Bescowitz line, which arrived here last evening and after taking on cargo left again for the North, brought south with her the prisoners who were convicted of stealing money from her strong room and sentenced to serve five years in the penitentiary.

The robbery occurred while the St. Denis was anchored in the Skeena river off Port Essington. Curiously enough, this was the first time this summer that the steamer had anchored, there usually not being enough, time to admit of anchoring. They were waiting for the flood tide after landing their passengers on the night of the 25th August. At 1 jp. m. all was well for Captain Johnson himself, made the rounds of the boat. At 2.30 the night of the 28th August. At 11 p. m. all was well for Captain Johnson himself, made the rounds of the boat. At 3.20 the fireman of watch switched on the electric light near one of the chutes, when he noticed that the glass in the port hole of the strong room had been smassied. He raised the slarm; and Purser W. Keeling appeared on the scene. Opening the room three packages of bills were found to be missing, which afterwards were found to contain \$21,000. This money was being taken to the Naus river to pay off the fishermen.

Anthoring in Prince Rupert harbor the police were sent for, and the passengers were all searched and sent ashore. Four Anchoring in Prince Rupert harbor the police were sent for, and the passengers were all searched and sent ashore. Four or fige constables arrived and a more thorough search, was commenced. Constable Leek finding a good deal of the money in an old mattress. All the money was discovered with the exception of \$1.50c, which is still missing.

Eight members of the crew were sent ashore in custody to be held, as witnesses, and a reward of \$10c was offered to the man who found the rest of the money, but without any result.

It may be well to mention here that neither the engineer or the steward were suspected of having anything to do with the matter, a false impression having apparently gone abroad in regard to them.

them.

By this time the officers of the ship and the constables had formed a pretty good idea who was implicated, so Captain Johnson went to the lock-up and had a long interview with one or two of the prisoners, with the result that the half-breed quartermaster. Augustine, confessed that he and the waiter, Percy Wall, had taken the money, and that no one else in the ship had anything to do with the matter.

the ship had anything to do with the matter.

A preliminary trial was held at which Wall was charged with the theft before William Manson, J. P., the other members of the crew testifying to the fact that Augustine and Wall were drinking together at Essington on the previous evening. Then Augustine was called as a witness and testified against his comrade, and Wall interrupted the testimony in such a way as to clearly implicate himself. Seeing that there was no way out of it he then confessed to having been a party to the robbery.

Augustine was then charged, and Wall was put in the witness box. Both were sent for trials and Judge Young arriving in town from Port Simpson two days later they elected to take speedy trial before him. Each pleaded guilty, and they were sentenced to five years in the penitentiary.

tentiary.

The St. Denis brought south 8,000 cases of salmon from the Naas, Skeena and Rivers Inlet. She had a large number of Chinese, Japanese and about 20 first-class passengers. Among the latter was Mr. Baynes, of the Strathcona cannery. passengers. Among the latter was all.

Baynes, of the Strathona cannery.

On her way Norta this trip the St. Denis
will dake a number of Indians to the vilage at the mouth of the Komane river.

PUEBLA ARRIVES.

Discharged Cargo and Left Early This Morning for Seattle.

There is a slight falling off in the travel from San Francisco to this port and Puget Sound. Steamer City of Puebla, which arrived last night, brought only 109 passengers in all, and of these twelve were for Victoria. The vessel brought a heavy cargo of freight, a quantity being landed here for Island points as far north as Cumberland. The following passengers debarked here: J. D. Sullivan, Chas. Bach, L. A. Withers and wife, H. Johnson, Mrs. W. L. Craig, C. Buknell, Thos. Purdy and wife, Miss Annie Thomas. The vessel left for Seattle early this morning.

dded commall the Ainu women of Japan tattoo their faces in order to give themselves the look of whiskered men.

The Proud Mother—"This boy do grow many the like "is father every day."

The neighbor—"Do 'e, pore dear!" And ave you tried everything?"—Sketch.

LUSITANIA AGAIN

LOWERS RECORD

Four Days, Eleven Hours and Fifty-two Minutes.

New York, Sept. 2.—The Lusitania by landing her passengers in New York at 7.30 last night accomplished York at 7.30 last night accomplished the first four-day western passage of a trans-Atlantic liner. Her time from Daunts rock to the Ambrose channel lightship was four days, eleven hours and forty-two minutes. This new record clips more than three hours from the Lugitania's best performance heretofore.

heretofore.

The Lusatania maintained an aver-The Lusatania maintained an average speed of 25.85 knots for the entire voyage, beating the Mauretania's record of 25.84. The Lusitania and Mauretania have heretofore left Queenstown on Sunday and reached the Ambrose channel lightship too late ou Thursday evening to allow them to dock before Friday morning. Yesterday for the first time one of them proved herself a four-day boat. The liner was favored by fair weather for almost the entire voyage.

New Record by Empress.

New Record by Empress, New Record by Empress, London, Sept. 1.—The steamer Em-press of Ireland, which sailed from Quebec August 27th for Liverpool, has broken the record by a passage of five

PRIBILOFF HERDS RAPIDLY DIMINISHING

United States Again Moving in Matter of Prevention of Pelagic Sealing.

(Times Leased Wire.) (Times Leased Wire.)

Washington, Sept. 3.—The department of commerce and labor has received from its agent, R. A. Clark, a report that the seat heards off Priblioff Island, Alasks, are being rapidly diminished by depredations of seal hunters. The department has communicated with the state department. municated with the state department, asking its assistance in bringing the matter before certain governments.

The only governments other than that of the United States is that of China and Japan. Most of the vessels hunting in Behring Sea this year are flying the Japanese flag, although canadians. By sailing under the Jap-anese flag the vessels have the ad-vantage of being able to approach within three miles of the islands and of using guns in the hunt, whereas Canadians must not approach nearer than 60 miles, and must use only

Rear Admiral, Formerly Captain Grafton, Succeeds to Atlantic Fleet.

Rear Admiral Sir Colin R. Keppel D.S.O., who has relinquished the com-mand of his Majesty's yacht Victoria and Albert to Commodore N. C. Palmer, will holst his flag on the battleshig Vengeance, in the river Medway, on August 26th, on succeeding Rear Admiral W. B. Fisher, C.B., as rear admiral in the Atlantic fleet. On August 27th the flag of rear admiral Sir Colin Keppel will be transferred to the bat

Keppel will be transferred to the bat-tleship Albermarie, from which the flag of Rear Admiral Fisher will be struck on August 26th, Captain Keppel, the present admiral, was in charge of the flagship Grafton at Esquimall, under Admiral Bickford. He was very popular here and many will rejoice at his promotion.

DOUBTS IF OHIO

CAN BE RAISED

Water and Mud Up to

(Times Leased Wire.)

Seattle, Sept. 3.—That the wreck of the steamer Ohio will never be floated is the opinion of Capt. Baughman, of the steamer Humboldt, who arrived in Seattle on his vessel after a voyage to Skagway, yesterday. On the return trip he put the Humboldt into Carter Bay.

"The stern of the Ohio is embedded in the mud up to her wheel," said Capt. Baughman. "A small river debouches just opposite where the vessel struck and it is bringing down vast quantities of shit all the time. It will require the construction of a coffer dam to keep the hull protected.

"The bow of the vessel is sticking up in the air while the stern is lying in \$5 feet of water and with the heavy cargo which is loaded in the after part of the steamer, I do not see how they are going to get her afloat again. The divers have not yet been able to learn much regarding the condition of the hull."

The Humboldt was the first steamship to be of assistance to the passistance to the passistanc (Times Leased Wire.)

The Humboldt was the first steam ship to be of assistance to the pas-sengers of the Ohio after they had been taken from the sinking vessel. Word of the condition of the vessel was received in Victoria last night by

was received in Victoria last night by the Dominion government wireless at Shotboit's Hill, it having been forwarded by way of Cape Lazo. The wireless also reported that the body of Frederick J. Stephen had been recovered from the wreek and put aboard the Rupert City going to Prince Rupert. It will be brought to this city for interment. It is thought that it will be ten days before any definite news regarding the raising of the vessel will be received.

MORE WHALE PRODUCTS.

Otter Brings Oil and Fertilizer From

Steamer Otter, Captain Campbell ar-rived this morning from the west coast with a cargo of whale products. This included 1597 sacks of fertilizer, and 487 barrels of whale oil. The latter will be shipped to Glasgow on the next Blue Funnel liner while the fertilizer will in all probability go to Californian points. The fertilizer is used extensively on the fruit lands in the neighbor-

MARINE NOTES

The Iroquois regular passenger list was this morning much augmented by a large crowd of Indians, who took passage on the lower deck. There were 290 siwashes with their klootchmans and families, enough to almost cover the deck. They took their personal belongings and cooking utensils with them. The Indians have just returned from fishing and are on their way to the fishing and are on their way to the hop fields of the United States,

Word has been received from Yoko-hama by the local agency that the steamer Kaga Maru sailed from that or 15th inst.

BY TUG QUEEN

Makes Western Passage in Stern of Vessel in 85 Feet of About Six Million Feet Taken From Comox to Chemainus in Month.

> says that he has made a record that cannot be beaten. The Queen is engaged by the Chemainus Lumber Co. towing logs from Union Bay and the Courtney river to the Chaminus mill. Since August 1st he has towed eight become each containing sixteen swift. Since August ist he as tower egat-booms, each containing sixteen swift-err and with an approximate measure-ment of three-quarters of a million feet. Besides this he has also delivered eight booms from Union Bay to Deep Bay, a distance of eleven miles. Four tows of boomsticks have been taken back as well as some freight.

tows of boomsticks have been taken back as well as some freight.
Captain Pynn says that all this was done while in other parts of the Guif booms were being lost, and all kinds of difficulties experienced. The distance from Comox to Chemainus is 72 miles, so that anyone who knows anything about towing can see that the work done was very unusual. The Queen is a 35-ton tug, the property of J. H. Greer, of this city. J. H. Greer, of this city.

TO TEST SALT

WATER SYSTEM

The city has expended about \$800,000 upon the following improvements: Waterworks.

the source of supply) have been raised at certain points to allow the water to rise three and a half feet higher than

rise three and a har at present.

2. 9,500 feet of the 16-inch supply main from the lakes to Victoria pump-ing station has been replaced by 24-inch pipe, in order to increase the amount of water delivered at the pump-

ing station.

3. A 2,600,000 gallon pump has been installed in Victoria pumping station to replace the old 2,000,000 gallon pump which will now be held in reserve. Pump to suck from the 16-inch main and discharge through a 16-inch, enlarging into a 27-inch, main into a 16,000,000 gallon reservoir.

4. A 16,000,000 gallon reservoir has been bestled at Smithle bill which is

Note—In the district covered by the high pressure system there are also 33 hydrants on the gravity system.

A pumping station, two-story fire-proof structure located at the foot of Herald street. Two pumps of 4,000,000 gallons capacity each, one pump to be driven by steam and the other by electricity supplied by the B. C. Electric Railway Co.

This system is planned to deliver 14 4. A 18,000,000 gallon reservoir has been installed at Smith's hill which is elevated 193 feet above high water mark. From this reservoir the flow is by gravity to town, giving 80 pounds statle pressure in the business section.

5. A 100,000 gallon steel and concrete the concrete has to be kept filled. tank, on concrete base, to be kept filled automatically by two 100,000 gallon electric power pumps in the Yates street station has been erected in the high level residential section,
6. New distribution pipes have been laid as follows:
97-treek from Smith's Hill reservoir to

Cook and Hillside.

Opposite Spencer's

Y. M. C. A. ATHLETES RECEIVE MEDALS ferre

Presentation Made at Camp of **Association Last** Night.

The reception given last evening to the Y.M.C.A. athletes at the Gorge camp was a delightful affair. After a big bonfire had been littin front of Mr. big bonnie tent, the work of the evening was started. Nearly all the track athletes were present and the swimmers were there in large numbers.

were there in large numbers.

The news that William Henry, the founder and secretary of the Royal Life Saving Society, who is now in Vancouver, will be crossing the Gulf to visit Victoria in a few days was well received. He is now travelling through the Empire giving demonstrations and trying to promote the art of life-saving. He is also making an attempt at having life-saving and swimming taught to all pupils of public schools as a part of their education. as a part of their education.

as a part of their education.

Before presenting the medals to the winners of the Saturday swimming meet last night, Mr. Brace made reference to the splendid and unusual success that the Y.M.C.A. athletes have made this year. At the beginning of this year the association's basket-ball team won the championship of the coast and brought the handsome and

Warhop OPENING UP OF

HUDSON'S BAY LANDS

Matter Was Pressed Upon Lord Strathcona and C. C. Chipman.

Advantage was taken of the presence in Victoria this week of the Governor (Lord Strathcona) and of the Chief Com-missioner (Mr. C. C. Chipman) of the Hudson's Bay Company, to lay before them certain disabilities under which the districts surrounding Victoria labor owing to the conservative land policy of the

R. H. E. great company.

1 9 4 The districts which chiefly suffer in this

purposes.
Simon Leiser, president of the Board of Trade, in his conversation with Lord Strathcona, urged him to have buildings erected on the vacant lots belonging to the company in the heart of the city, pointing out what a great improvement this would effect in the appearance of the place.

WEATHER BULLETIN,

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Sept. 3.-5 a.-m.-As the baro victoria, sept. a - a a - a - a - a c dare meter remains unusually high over the northern portion of the province, the weather continues fine and warm along the Coast. Showers have occurred in Eastern Washington, Oregon and in Southern Alberta, elsewhere in the prairie provinces fair weather continues.

For 36 hours ending 5 p. m. Saturday. Victoria and vicinity—Light to moderate winds, continued fine and warm.
Lower Mainland-Light variable winds, continued fine and warm.

URGE RIGHTS OF

WOMEN TO VOTE

Miss Mills, of Syracuse, Speaks of Convention of Municipalities.

The right of women to vote was American Municipalities at Montreal the right, but were not very outspoken on how it should be exercised, says the Sazette. A strong point made by Miss ive of the Montreal Women's Suffrag

graduated from the colleges of the United States. It, therefore, happened they were taking more and more inter-est in government that was around

A point she made was that women were nixtural cleaners, and the only two men in their class were Hercules, who had much trouble in washing the stables of antiquity, and Col. Waring, of New York, who had invented the of New York, who had invented the "white wings," new familiar in all towns where streets were kept clean. Being natural house-cleaners, women aspired to cleaning of another order, or in other words, they were now advocates of clean cities, "clean school yards, clean back yards, and so on. Miss Mills remarked it was said that Miss Mills remarked it was said tha women had invaded all occupation except those of linemen and marines except those of linemen and marines, it was not work that was lacking, it was rather another kind of weapon that women were contending for. The frouble with many women was they were afraid of doing something their grandmothers had not done. But the times required a change in the status of women and they were now asking. of women, and they were now asking for suffrage. It did not necessarily mean they wanted to become mayors and comptrollers of cities, as there would always be men enough for these resittence.

in Syracuse, her native city, where women were making a campaign for removing the smoke nuisance.

What women wanted, she continued, was the power of going to the mayor f a city and telling that gentleman hey had power to oppose him if the two week not enforced. "But," she dded, "women are never constituents, here is no ser in the continuents, here is no ser in the continuents.

sided. "women are never constituents, there is no sex in a tax, and women have to pay as well as the men."

She dwelt on the difficulty encountered by women who tried to get some voice in their government. The difficulty seemed to be that men were too busy to listen to women on that question. It took fifty years' agitation in Massachusetts to get a law. tion in Massachusetts to get a law making the mother the equal guardian with the father of their children, which law had since been adopted in thirteen other states.

which law had since been adopted in thirteen other states.

One of the finest arguments that gomen had for the right of suffrage, she remarked, was the fact they elected Judge Lindsay, of Colorado.

Continuing, the speaker said that women were now fit to be trusted with the franchise. They were in-

with the franchise. They were inerested in the tariff even, as they
were taxed more for wearing apparel
under the law than formerly.

Miss Mills continued her address by
giving details of how the suffrage

orks in foreign countries, saying it

leaners, were needed at the polls, as ell as the men.

If Jeanne d'Arc won her battles, it was only when she wore her armor. She fought for freedom, and the wo-men of to-day, imitating her example,

men of to-day, imitating her example, must put on their armor; which was the vote, if they expected to win, and strive to obtain what was best in the government of the world.

The discussion that followed brought forth considerable support, though some of it was guarded in expression. H. Grosser, of Chicago, pointed out that all governments really concerned the home. It was home life that was concerned with government.

cerned the home, It was home life that was concerned with government, good and bad, and in that respect he thought women should have the right to speak about the home, as well as the men. On the matter of garbage and street cleaning, for example, it was the very subject of cleanlienss that women were most interested in, and he said he had no doubt the day was coming when the rights of women.

and he said he had no doubt the day was coming when the rights of women, as they were being advocated, would be acknowledged.

Mrs. Smiley, of Montreal, drew attention to the fact that women were needed for their help in many matters of detail in all cities. This was particularly the case in seaport towns, where the moral question was of much prominence.

where the moral question was of much prominence.
Controller Hocken, of Toronto, declared that the support of women in Toronto had helped to reduce the number of licenses by means of the municipal franchise, and it was doubtful if it could have been done otherwise.

Mayor Cook, of St. Louis, president of the league, brought the discussion to a close by saying the question had been discussed many years, and was probably destined to be discussed many more. Only the future could tell what the ultimate result would be.

Birthday Cake.—One lb. butter, one lb. sugar. twelve eggs, one lb. flour. two lb. currants, one lb. sultanas, one-quarter lb. peel, one-quarter lb. dried figs, one-quarter lb. almonds. little ground mace, little ground cloves. Mix the dry Ingredients, then beat butter and sugar to a cream; add eggs gradually (well beating all the time.) Mix all together, beat well, and bake in a moderate oven. A tablespoonful of brandy improves the cake.

AEROPLANE HAT IS THE LATEST

Decree Sent Forth by the National Millinery Association.

Chicago, Sept. 3.—Next, the aero-plane hat—it is the "thing." So de-clares the milliners attending the Na-tional Millinery Association meeting here to-day,

The "pench basket." "scoop shovel, "merry widow," etc., which have grace my lady's head this season were con demned as too expensive and behin-the times.

the times.

The "aeroplane hat" is almost as astounding as the long flights by Aviator Curtiss at Rheims last week. It holds the record for a long distance flight of fancy if its description can be used as a criterion. "The thing" is a rectangular contrivance, preferably in velvet, molre or berry color somewhere between lavender and purple. The back of the hat is turned to resemble an aeroplane rudder and two verticle planes are built of two large wings which project built of two large wings which project from a sort of box-like bit of gear which is arranged to perch over the

right eye.

That is the "acropiane hat." the predicted successor to the present popular creations.

SUCCESSFUL PLAY.

"A Gentleman From Mississippi" Has Had a Long Run in New York,

year in New York city will be the ofyear in New York city, will be the of-ferring in the Victoria theatre next Monday, September 6th, with its glimpses of Southern life in Washing-ton, D. C., and the interest of the au-ditor is kept at high water mark all through the play. The company which through the play. The company which Wm A. Brady and Jos. R. Grismer are sending here has been selected with great care, including James Lacksys. Osborne Searle, Fletcher Harvey, Hal De Forrest, Edwin A. Sparks, H. Bratton Kennedy, J. P. Winter and the Misses Olive Harper, Virginia Pearson, Minnette Barrett, Adelaide Wise and Lath Konari.

PANTAGES THEATRE.

Admirers of physical strength, skill and daring are greatly pleased with the thrilling cannon juggling exhibition by Mons. Savillo at the Pantages this week. All of-his work is of the clear-cut type and done in such a graceful manner as to seem easy. With the added comedy of Pifs, the act is both sensational and amusing.
"Our Country Cousin," the humorous playlet with a rural flavor, Eddie Dolan, Irish orator and comedian, Edith Haney, the "Animatel Dol!," and the regular Pantages attraction, all continue to delight Pantages patrons.

Simons to Mr. Alexander McCremmon. The marriage will take place on the 15th of this month.

A pretty wedding took place in the Methodist church, Strawberry Vale, on August 25th, when Miss Effic Louise Etheridge, eldest daughter of Mr. and Mrs. E. L. Etheridge, was united in marriage with Mr. Charles Haroid Newby, of Kelowna, B.C. Rev. J. A. Wood officiated.

Mrs. Wm. McLaren of Niagara street, who has been spending the last two weeks with friends in Vancouver, reguest of Mrs. R. G. Howell, Maclure street.

The ball arranged to be given by the The ball arranged to be given by the Alexandra Club in aid or the woman's building at the agriculture fair grounds, has been postponed until some-date late in October. This step has been rendered necessary by the absence of many members from town. At the annual meeting of the Alexandra Club, which will be held on Monday. October 5th, further arrangements will be discussed and the date definitely settled.

The engagement of Dr. Grenfell, the celebrated missionary of Labrador, to Miss MacClamahan is quite a romance. The young lady, who is very wealthy, has studied surgery and domestic science. About a year ago, when Dr. Grenfell first went to Chicago, she took a deep interest in his philanthropic work, and the friandship then begun thereas into an engagement. They will work, and the friandship rice of the ripened into an engagement. They will be married in November, and speud the honeymoon at Battle Harbor hospital.

honeymoon at Battle Harbor hospital.

Mrs. F. H. Parsons received yesterday afternoon for the first time since her marriage at the home of her mother. Mrs. Deaville, Gorge road. The different rooms were prettily decorated throughout with sweet peas and ferns. Mrs. Parsons received in her wedding gown, a beautiful cream satin princess. Receiving with her were her mother in black silk, and her sister, Mrs. Edward Parsons, in a becoming blue cloth empire. Mrs. C. B. Deaville, in a dainty blue embroidered linen, and Mrs. J. T. Deaville, in a pretty grey voite, were in charge of the tea room, which carried out a delicate color scheme of white and green.

Miss Cordelia Grylls returned to town

Miss Cordella Grylls returned to town yesterday afternoon after spending enjoyable summer in London, wi

was on the train which followed the one containing the private car of Lord Strathcona. At Craigellachie, that interesting point in the mountain district where the function of the castern and western sections of the C. P. R. met and the line was completed. Lord Strathcona's private car was stopped and his party got out to view at close range the monument erected there in his honor. The movements of the distinguished travellers were watched with interest by the passengers on the regular C. P. R. train which was immediately behind. Miss Grylls is staying at the Driard at present,

TIMELY RECIPES

cups of lentils with a fork, and bind together with two tablesp browned butter and flour, one mashed soft, or a spoonful of top made with two tablespoons of but-ter, a teaspoon of minced parsley and a teaspoon of lemon juice worked well together.

Lentil Cake,-A variation of the about method is particularly good; instead of one, make lifto several smaller cakes, and after broiling serve each on a square of thin buttered toast which has been freshly sprinkled with lemon juice. Mash two bananas smooth, add two tablespoons of milk, one-quarier teaspoon of salt and a pinch of pepper. Heat and pour some over each steak

Lentil Pattles.—Mash some cold boil-Lentil Pattles. Mash some cold boiled potatoes, mix in enough fine flour so that it may be rolled out like pastry and line some well-greased patty pans with it. Add to one cup of lentils an egg yoke, a tablespoon or two of grated cheese, and a pinch each of mustard and cayenne. Fill each patty case with the mixture, cover with the rolled potato pastry, brush over with beaten white of egg and with a scriptling of white of egg and with a sprinkling of crumbs, and bake a golden brown in a hot oven. If an accompaniment be desired, a celery or cheese sauce is suitable.

Chou Paste. — To a cup of boiling water add half a cup of buter, and heat again to the boiling point; stir in one cup of pastry flour and continue stirring until the mixture separates from the saucepan, then turn into a bowl and beat in three eggs, one at a time. Beat in each egg thoroughly before the next is added. This will make south seathers. make enough paste to pipe upon twelve or fourteen round of paste.

sugar, one-half cup milk, three-quart-ers cup desiccated cocoanut. Boll the utes, stirring all the time; add the co-coanut, and boil one minute longer, recoanut, and boil one minute longer, re-move from the fire and beat while cool-ing till it creams; then pour quickly into a wet soup plate, make a second layer, and color it with cochineal; cut in squares when nearly cold,

Substitute for Cream—Three-quarters pint milk, one teaspoonful flour, one dessertspoon sugar, one egg, one tea-spoonful of desiccated cocoanut. Boil the milk, put in sugar and cocoanut, stand aside to cool a little, put a level stand asset to cool a little, but a level teaspoon of flour into a cup with the yolk of the egg, beat well together, pour on the hot milk, stirring quickly to keep from being lumpy; pour back into saucepan and stir until it is quite

REPLIES TO CIVIC ADDRESS

LORD STRATHCONA WRITES MAYOR HALL

Charmed With City for Which He Has Greatest Love and Affection.

Before leaving Victoria, the Right Honorable Lord Strathcona, High issioner for Canada in London, handed to His Worship Mayor Hall the following reply to the civic address of

Victoria, B. C., Sept. 2nd. 1909. Dear Mr. Hall:-Your kind thought In handing me, as you were good enough to do on my arrival here yesterday, a word of welcome on behalf of the Municipal Council of Victoria, I greatly

of meeting so many old and esteemed friends and of witnessing for myself the great marks of improvement and progress that have gone on in the beautiful city of Victoria since I was last here, now almost twenty years of another.

The kind personal words to myself Medical Lake hospital for the in given expression to in your address I last April. He had been rational until am grateful for, and you may rest well last night.

assured that I value and reciprocate them to the fullest extent.

I shall go back to the Mother Country more than ever deeply impressed by the evidences of the great future before the fair Pacific province of the Dominion, and anything and everything I may be able in my humble way to do in furtherance of its best interests will gladly be done.

Again thanking you and those you represent,

I am, very truly yours,
(Signed) STRATHCONA.

MANIAC KILLS HIS WIFE:

Beats Her Head to Pulp-Three Police men Injured in Struggle,

Spokane, Wash., Sept. 2.—Seized with

Glindaman was released from the

BRIDGE AT VANCOUVER

Earl Grey, Who Will Take Part in Ceremony.

Vancouver, Sept. 2.—A gigantic parade, participated in by the city police, the firemen, boys' brigade, High School Cadets, and Sixth Regimental band will be formed to meet Earl Grey on his arrival here for the bridge opening. The civic committee in charge of the affair met yesterday and drew up preliminary arrangements for the copening of the Spokane, Wash., Sept. 2.—Seized with maniacal fury. John Glindaman, a stock buyer and former champion wrestler of the Pacific coast, last night murdered his wife, tore strips of flesh from her body with his teeth and beat her head to a pulp with a heavy brass lamp bowl. Glindaman is in the city prison here to-day after a terrific struggle with five patrolmen, three of whom were injured in making the arrest.

When the officers entered the house last night they found Glindaman seated of yer the body of his wife. In each hand was a loaded revolver and the man fired several shots before the police closed in upon him. The maniac cluded the grasp of the policemen. After a terrific struggle, Glindaman was beaten into insensibility and securely bound. Two policemen were shot and the crazed man had bitten off a finger of met yesterday and drew up preliminary arrangements for the opening of the Granville street bridge, and the reception of the proper to the formal welcome by the major and the aldermen. The balloon had already been filled with gas, and Simmons had shouted a warning to the spectators to stand back. Instead of heading the warning of the balloonist. Neff and his companions as a guard of honor. Prominent in the procession are to be those ex-ladermen who were in office at the time of the police closed in upon him. The maniac cluded the grasp of the policemen. After a terrific struggle, Glindaman was beaten into insensibility and securely bound. Two policemen were shot and the crazed man had bitten off a finger of another.

Glindaman was released from the Medical Lake hospital for the linear of a nother.

The bridge will be decorated and an the office of his perishence of the bridge of his wife. In each of his fight.

We have the body of his wife. In each had been extended to the civic authorities of the neighboring cities and municipal to the procession are procession, accompanied by the militia and other organizations. It is the procession are to be those ex-aldermen to the balloon started upward of horor. Th

various organizations. It is expected that the attendance will be a record one.

The bridge will be decorated and an awning placed at the north end of the draw-span. Under this a speaker's stand has been placed. Among those who are to speak besides His Excellency are: His Worship the Mayor, Mr. Waddell, consulting engineer, and representatives of the Dominion Bridge Company, and Armstrong & Morrison, the contractors.

It is possible that there will also be a marine parade to pass through the draw. The B. C. Electric railway will inaugurate the new service over the bridge immediately after Lord Grey cuts the ribbon and pronounces it open.

ASKS FOR INVESTIGATION.

Regins, Sept. 3.—Alderman Peveret took action yesterday in the matter of the charges against Alderman Wilkinson and City Clerk Hunter, with whom his name has been intimately connected in a manner not complimentary to himself. He has asked for a commission to investigate the charges, and this will be granted by the council, The commission will be composed of a judge of the Supreme court of Saskatchewan, it such an officer can be persuaded to act.

The first inking Simmons had that all was not night was when he heard a cry of horror going up from the thousands of spectators. Peering over the edge of the balloon, Simmons saw the body of little Quinter dangling from one of the ropes. As the balloon shot upward the boy's body began to revolve. At first it moved slowly, but as the air craft shot upward the boy's body began to revolve. At first it moved slowly, but as the air craft shot upward the boy's body began to revolve. At first it moved slowly, but as the air craft shot upward the boy's body began to revolve. At first it moved slowly, but as the air craft shot upward the boy's body began to revolve. At first it moved slowly, but as the air craft shot upward the boy's body began to revolve. At first it moved with fear, expecting every minute to see the lad's body preak loose from the balloon and fall to certain death. Then the balloon began to descend.

SECRETARY FOR THE COLONIES

SKETCH OF CAREER OF THE EARL OF CREWE

Is Leader of the Liberals in

the cleverest eintenance and speakers of the present time who, after years of work in the Commons, have come to the Upper House. They are backed up by hundreds of ardent hereditary legislators of Conservative tendencies. And this is the army that the Liberal peer leader has to face.

Poet and statesman, country gentleman and society faverite, the Radical leader if the Lords is a singular combination of a man of letters and a man of the world. He looks the part too. Extremely tall and carefully dressed, with regular features and long drooping moustache, being the sum of the same time serves to estimise a very square and properlien that the wame time serves to estimise a very square and properlien that the wame time serves to estimise a very square and properling that sport to have been of the long drooping moustache, which all the same time serves to estimise a very square and properline that the wame time serves to estimise a very square and properline that the wame time serves to estimise a very square and properline that the long with the properline that the wame time serves to estimise a very square and properline that the value of the long drooping moustache, which as the long of the long drooping moustache, which as the long drooping moustache, which as the long of the long drooping moustache, which as the long of the long drooping moustache, which as the long of the long drooping moustache, which as the long of the long drooping moustache, which as the long of the long drooping moustache, which as the long drooping moustache, which as the long of the long of

of yerse, and his volume of poems.
"Stray Verses," remains an indication of his tastes.

But literary pursuits were not destined to hold him, and he plunged early into the stormy sea of politics. He was thirty-four when as Lord Hougton he was appointed by Mr. Gladstone to be Lord Lieutemant of Ireland, He went there in the exciting times of the second Home Rule proposals, and, young though he was, he soon showed that he possessed stiffer qualities than those required by the mere "litterateur."

In the height of the struggle his position of Lord Lieutenant was a hard

In the height of the struggle his po-sistion of Lord Lieutenant was a hard one with many bitter situations, with anxious days and weary nights. The loyalist gentry refused to appear at the Viceregal Court, and there were a hundred humiliations which would have broken a man of weaker fibre. Lord Crewe, despite his delicate peetry and gracious manners, was not the one with many bitter situations, with anxious days and weary nights. The loyalist gentry refused to appear at the Viceregal Court, and there were a hundred humiliations which would have broken a man of weaker fibre. But the Louistries, chemical raw stuffs, and gracious manners, was not the man to be easily crushed. His courtesy and unruffled dignity are remembered the this day. True, He gained in some quarters the reputation for a touch of hauteur, but this was the notunnatural result of the circumstances from the Lord Lieutenant, with all his courtesy, was never the man to bend his head gently to opponents.

Handling the Education Bill, It was for his services in irleand that Lord Hautton was made the Earl of Crewe. When Sir Henry Campbell-oft. It is an interesting fact, he states, in the courtest of the courtest of the courtest of the courtes of the Lord Lieutenant with all his courtesy, was never the man to bend his head gently to opponents.

Handling the Education Bill, It was for his services in irleand that Lord Hautton was made the Earl of Crewe. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. When Sir Henry Campbell-oft and the Lord Lieutenant with all his courtesy. HOW ZEPPELIN WILL TRY TO REACH POLE

Hopes to Crown His Work as an Aviator by This

the House of Lords.

The budget debates in the House of Commons will be overshadowed throughout by one question in the minds of all who take part in them: What will the lords do? For whatever the vigor of the contest in the Commons, however great the issues involved, the final crists will be encountered in the Upper House. There the burden of leading the fight on behalf of the chancellor and the cabinet will fall on the Earl of Crewe, the commander hitherto of many a hopeless political contest with the peers, writes Frank Dilnot in the London Daity Mail.

There are over 600 members of the House. About 100 of these are Liberals. The other 500 include some of the cleverest statesmen and speakers of the respectively with the commons, have come to the Upper House. They are backed up by hundreds of ardent hereditary are yery pleased," he said, "to hear of the port into plant in the prince's lux

Newspaper Advertising -Builds Business-

The business that does not advertise, like the sail boat without any wind, will never break any speed record-Rusty Mike's Diary.

The Antediluvian Doubter

AROUND every city and town there is at least one business oracle, who will smoke tobacco, spit, and tell you that advertising does not pay. It seems that "The way it used to be done" germ gets into this man's system and creates such havoc with his ideas of business methods that he simply won't listen to a heart to heart talk about this, the greatest of all business building forces.

Just now there is talk about celebrating the first trip of the first successful steamboat in the history of the world. One can, in fancy, almost hear the comments of the doubters and the gossips at that time, and yet Fulton did run that steamboat, and to-day it's improvement is the recognized method of transportation of the world. It is a fact that Fulton's achievement was the basis of argument for every promoter of a perpetual motion machine for years to come, and those who picked the steamboat and rejected the perpetual motion machine merely showed the same kind of good business judgment that the man of to-day displays when he picks the genuine advertising and scorns the spur ious article.

The Women's Trade

The women folks have learned to watch the papers.

Funny magazines, lecturers, would-be humorists, have belittled the woman in her effort to make the weekly allowance go as far as it will, but the fact is constantly before the student that the woman is the real econom-

When once you start your advertisement in the paper, the women of the community become your best friends or your worst enemies. Your first announcement, if it contains prices, brings them to inspect quality, and if your advertisement is truthful, to buy-but woe unto him who insinuates through his newspaper advertising that women are

A Lesson in Proportion

The merchant who sells an article at a profit of 10c and sells twenty of them makes more money than the merchant who sells four articles at a profit of 256. Certainly it is easier for a merchant to sell twenty articles at a profit of 10c than it is for a merchant to sell four at a profit of 25c if the first merchant lets the whole town know of the bargain.

The Right Medium

THERE is a time, certainly, when a man must decide himself whether he is merely a sheep following a bell, or keeping to a well defined, successful business career. The bill-board, the programme, etc., are condemned and forwned upon by successful advertisers of to-day. Yet there are men who use these forms of advertising occasionally, and because of failure to get profitable returns, decry advertising, advertising men, and those who use it to build up their business.

More and more is the wonderful value of newspaper advertising becoming known and the almost unbelievable successes due to its use are being brought to light. Think, if you can, of a dozen of the world's greatest mercantile successes, and in that number you will find twelve users of newspaper advertising-a remarkable record, when you stop to think about it, regarded from two standpionts; one, that the public should be hoodwinked at times by the wailing of the nonadvertiser that owing to the fact that he did not advertise, he could sell his goods cheaper; and the other that any merchant should attempt to do business without taking up one of the most essential helps in business building, newspaper advertising.

N VIEW of these facts, which are very apparent, what argument can be made in favor of any advertising medium that it even distantly competes with the daily newspaper? The store-keeper who has enough business ability to buy goods right, and keep store profitably, must see the light, and realize that the telling of these facts to the people through the daily newspaper must bring success.

U. S. Steel Do., pref. U. S. Steel Do., pref. Utah Copper Va. Car. Chem. ROAD CUT RATES.

Santa Monica, Cal., Sept. 3.—Testi-money given by A. C. Olson, coal deal-er, to the effect that the Southern Pa-cific railroad as late as October, 1907, cut rates on shipments to a figure be-low that specified in the tariffs, is causing much discussion here to-day. Olson was sued by the railroad for causing much discussion here to-day.
Olson was sued by the railroad for a small sum, the plaintiff sileging that its local agent granted him rates on coal shipments from Gallup, N. M. 50 cents below the regular rate.
Olson testified yesterday in Judge Steele's court that the Santa Fe road international Coal & Coke. cents below the regular rate.

Olean testified yesterday in Judge
Steele's court that the Santa Fe road
once granted him rebates and that the
Southern Pacific agent quoted him the
low rate to under bid the Santa Fe-Judgment was given Olson by default of the plaintiff.

suit of Improvement in Trade.

New York, Sept. 2.—Higher prices ruled in United States steel shares to-day as the result of the improvement in the steel and iron trade. There was talk of steel common advancing to 30 and even 100, but the market to-day did not make such a heavy movement. Toward the close it, went 40, 80%, or 2 points higher than the previous closing. Preferred made a gain 1% points in sympathy with the movement in the common.

SPIRITUALISTIC MEDIUM WINS WILL CASE

Secures \$10,000 as Result of Decision of Los Angeles Judge.

Los Angeles, Sept. 3.—Dora Bennett, a spiritualistic medium, to-day won a complete victory and incidentally \$10,-000, when Judge Rives admitted to probate the will of the late R. Crawford

second gave \$5,000 to Lottie Livingston, a Pasadena school teacher, and \$2,000 to Lola Swilling, of this city.

The instrument was contested by the The instrument was contested by the original heirs, who claimed that the codicils were made at the instigation of Dora Bennett and the other two beneficiaries. They allege that the medium exercised an undue influence over Smith by playing upon his spiritualistic beliefs and employing alleged advices from the world of spirits.

The case, which was before the su-perior court for more than a month, ended in May and the decision, which was reserved by Judge Rives, was given yesterday and the will admitted to probate.

Smith. Smith died last February, leaving an estate valued at \$96,917. His will, as first prepared, provided an even distribution of the estate among two brothers and two sisters. After the date of its execution, however, two codicils were added, the first bequeathing \$10,000 to Dora Bennett, while the

Nelson, Sept. 2,-The sixth genera meeting of the members of the western branch of the Canadian Mining Insti-tute will be opened in this city or Saturday morning, September 25th acted and several papers read and dis-

The council of the branch having The council of the branch having approved of the acceptance of an invitation received from the reception committee to adjourn to Spokane and there join in welcoming the American Institute of Mining Engineers to the northwest, there will be at the close of the session in Nelson an adjourn of the session in Acion an adjournment to Spokane, where a joint session of the two institutes will be held, at which several papers relative to the "Coal Resources of Southeastern British Columbia and Alberta" will be read

MILLIONAIRE IN PRISON. W. J. Bradbury Taken to San Quentin to Serve One Year Term,

San Quentin, Cal., Sept. 2.-Wm. J. San Quentin, Cal., Sept. 2.—Wm. J.
Bradbury, the aged Corte Madera
millionaire who was convicted of perjury, was taken to San Quentin prison
yesterday by Sheriff Wm. Taylor, of
Marin county. With his prisoner Taylor left San Rafael in a buggy at 9
o'clock and at 9.45 Bradbury lost his identity and became merely No. 23,753. Before entering the iron barred prison door the aged man turned appealingly toward a guard standing between him and freedom. "This is awful," he sobbed.

Mattresses used in the German army are stuffed with little rolls of paper, and are said to be a great improvement on attaw.

DETECTIVE IS ACCUSED OF ASSAULT

Trouble at Minoru Track Will Be Aired in Police Court.

er of exceptionally high poles will be Vancouver, Sept. 2.—The methods of required in the construction of the the Canadian Detective Association Cloverdale section of the B. C. Electric railway now being built. The high tension wires will cross the Westminster bridge at a height sufficient to permit the passing underneath of the highest masts, the top of the steel pole to which they will be attached will be no less than 165 feet above the highest highwater mark of the river.

About two miles from the south side of the bridge the trestic for the carline is in the neighborhood of seventy feet above the ground level and the wires are to be 55 feet above the track to accomplish which result it is understood that two poles will be spliced to attain the necessary height. The wires will carry four thousand voits, the poles being 65 feet above the track to prevent any danger of their touching the ground should a break by any chance occur. Some of these poles are now being set on the far side of the river. Cloverdale section of the B. C. Electric are likely to come in for examination Plumer there with the purpose of telephoning the results to Vancouver. This assistant was caught and taken to the rooms of the Canadian Detective Association at the track, and there beaten up, he says. His further claim is that a note was then sent to him in his assistant, a none was then sent to him in his assistant, a none was then sent to him to go out sistant's name, asking him to go to the track and when there he ust as roughly battered. All the tin just as roughly battered. All the time the men thought they were in the hands of the police instead of private detectives, and when they were informed that they had to get out of town and across the line they thought there was authority for the order. They were accompanied to the city, where the telegrapher. Weep met an operator whom rapher Moon met an operator whom he knew and who informed him, upor he knew and who informed nim, upon hearing of the trouble, that these de-tectives had no authority over them whatever. Then they consulted the American consul, following this up with a visit to a lawyer and proceedings

have been instituted ALBERNI FATALITY.

(Special Correspondence.) Alberni, Sept. 2.-Coroner Pybus held an inquest on Thursday last into the circumstance surrounding the death of David Smiley, whose body was found floating in the Kitsucsis creek at noon avenue from Second to Fourth streets, 1816. Barclay, sidewalk on Nanalmo street, 1826. Several applications were received.

The council came out strongly for cement sidewalks, and appointed Ald. of cement sidewalks, and appointed Ald. of liquor. Smiley, who was 56 years of age, was formerly goalkeeper for the Dosed new sidewalks in company with Ald, Henley, and report back to the council.

FIRE LIMITS AT CHILLIWACK DEFINED

By-Law Passed to Prevent the **Erection of Wooden** Buildings.

Chilliwack, Sept. 2.-The city council met in a special session, and finally passed a number of by-laws.

It was decided to hold the voting on the by-laws for the magadamizing of the streets on the 13th of September, and J. H. Ashwell was appointed returning officer.

turning officer.

The city council has passed a fire ilmit by-law and in future all buildlimit by-law and in future all build-ings in the business portion of the city will have to be constructed of brick, stone, concrete, cement or any other non-combustible material. In short, the by-law has been passed to prevent the construction or erection of wooden buildings, or additions thereto within the limits hereafter described as the "Fire Limits of the City of Chilliwack." 'Fire Limits of the City of Chilliwack."

No addition to or alteration of any wooden buildings, within the city fire initis shall be made when such addi-tion or alteration shall exceed 25 per cent, of the original cost of the building or materially increase the danger by fire or add to the permanency of said building.

WORK STARTED ON FLOATING DOCK Will Be Located on Burrard In-

let, Near B. C. Sugar

Refinery.

Vancouver, Sept. 2.-News has been sceived that work has actually been received that work has actually been started on the construction of the floating Gry dock for Vancouver, to be located on Burrard Inlet, just east of the B. C. Sugar refinery. Nicol Thompson, who conducted the negotiations in London for securing the dock, has received a letter from the Browne Engineering Co., London, dated August 19th, which reads in part as follows: "You may definitely inform the press."

"You may definitely inform the press that you have been instructed by us to put the dredging work in hand, and to take all necessary steps at your end to comply with the agreement with the government. We have commenced the work of constructing the dock here."

According to the letter, the hammers are now at work constructing the first of the pontoons to be used for the dock. These are to be built in London, and shipped here knocked down.

The floating dock is to be built at a cost of a million and a quarter dollars, and is to be constructed by the well-known firm of Swan & Hunter. It is to be of steel throughout. The dock's dimensions are to be: 510 feet in length. dimensions are to be: 510 feet in length 70 feet wide, 20 feet over the sills. I will have a lift capacity of 11,000 ton which it can handle in three and a ha riety. The dredging work will be started within a short time.

S. Y. WOOTTON, Registrar-General RETURN FROM VISIT

Rich Agricultural District Will Be Opened Up by Grand Trunk Pacific

TO FORT GEORGE

Vancouver, Sept. 2.-Wm, Godfrey. manager of the Bank of B. N. A., and H. A. Jones have returned from a couple of weeks' trip in Cariboo, when they went as far as Fort George, On their return they travelled on the steamer Nechaco from Fort George to Soda creek, through the canyon of the

"Captain Bonser is an experie river navigator," Mr. Godfrey remarked yesterday, "and we came through the canyon as easily almost as it it were the ordinary clear river. "The trip was an enjoyable one." he

MILL CHANGES HANDS.

Plant and Timber Limits Sold for the Grand Trunk Pacific is constructed these will be a constructed these will be a constructed. the Grand Trunk Pacific is constructed there will be a great agricultural country in the district surrounding fort George, It. somptises an area of several hundred thousand acres, with excellent agricultural advantages. When at Fort George we saw a field of oats which looked as the as any one might see on Lulu Island. People are going in, and transportation much facilitated by such a boat as the Nechaco. With a few obstacles removed from the rivers, much longer trips could be made, which would by of great assistance to settlers.

SHEEP CREEK CAMP

COMING TO FRONT Heavy Gold Production Will Follow Installation of

Electric Power.

Rossland, Sept. 2.—J. L. Warner, M. E., who will be remembered in connection with the pioneer days of Rossland, when he took an active part, visited the when he took an active part, visited the city a few days ago. Mr. Warner was the first man to ship ore from the Rossland camp, and it was in the fall of 1893 and from the Josie mine. At that time the cost of freight and treatment was \$25 per ton, which would be considered excessively high under the more advantageous conditions that now pressall. This ore was hauled to Trail and went by barge from Trail to Waneta, running Rock Island rapids, and
from Waneta was taken by rail to the
smelter at Tacoma. Mr. Warner began
these shipments in the fall of 1893, and
continued them in 1894.

Mr. Warner has devoted his time,
energy and skill during the last twales.

these shipments in the fall of 1893, and continued them in 1894.

Mr. Warner has devoted his time, energy and skill during the last twelve months to the Sheep Creek gold camp, situated a few miles east of Rossiand, purposes, electric light and irrigation which, by reason of its remarkable prowhich, by reason of its remarkable production, was little or no aid to capital, has suddenly come into prominence.

Mr. Brett explained that they had entered by the competent engineer who had a competent engineer who had

assets, holdings in Sheep Creek.

As soon as electric power can be furnished Sheep Creek, it will make possible a very heavy gold production, based on the ore tounage already developed at a comparatively small outlay by the original owners. It only remains for machinery equipment, promoting mining operations on a larger scale, to bring the district to the front more prominently than ever.

the light department. more prominently than ever.

AEROPLANE FALLS INTO LAKE

C. F. Willard Meets With Mishap During Trial Flight.

E. Wilson endorsed Mr. Brett's statements as to the proposed reservoir on the top of the mountain, and that water could easily be stored. He was firmly of opinion that it was a splendid natural reservoir.

A motion that

C. F. Willard Meets With Mishap During Trial Flight.

Toronto, Sept. 3.—At 7 o'clock last night C. F. Willard, of New York made a trial flight in the Curtiss aeroplane, Golden Flier, off Scarboro beach, when 300 yards off shore the aeroplane tipped, throwing Willard Into the lake, from a height or about 20 feet. The machine fell into the lake, too. Both were rescued. Willard was unhurt.

Lural reservoir.

A motion that a petition be drawn up at the council to borrow, and proceed at once with the work, and proceed at once with the work as proposed by Mr. Brett, i.e., the waterworks reservoir, extensions, clean out electric light dam and building a storage reservoir as suggested, etc., carried unanimously. were rescued. Willard was unhurt. The propeller of the machine and some of its framework were broken, but can be repaired in two days.

NEW HOSPITAL TO BE BUILT AT GRAND FORKS

Reform League Has Been Organized-List of Officers.

Grand Forks, Sept. 2.—The new hospital, to be erected in Grand Forks by Dr. C. M. Kingston, is to be of cement blocks, the contract for the manufacture of which was let this week to the local firm, Lutley & Gallipeau.

A new organization, known as the Citizens' Beform League, has been formed in the city, and includes the Local Option League, the Lord's Day Alliance and the Social and Moral Reform Council. The president of the organization is George R. Belton, the ivee-presidents are the former presidents. ivce-presidents are the former presidents of the other three organizations, which are merged into this new one. Dr. Follick, Rev. F. W. Auvache and Mr. Elliott; secretary, F. Lathes; treasurer, John Rutherford. The objects for which the league is formed are best set out in the following resolution which was unanimously passed at the inauguration meeting: "Whereas the Citizens' Reform League of Grand Forks is a non-political organization desirous of securing legislation conducive to the best interests of the home, community and province; and whereas it is the intention of this society and those in sympathy with its aims, irrespective of party affiliation, to take an spective of party affiliation, to take an active and energetic part in the elec-tion of a representative to the loca legislature from this constituency; an registature from this constituency; and whereas in our opinion, it is to the best interests of this district that a man of sterling qualities, honest intentions and uncompromising character, pledged to support local option, be selected by the respective parties to represent this con-stituency: Be it resolved, that if the respective parties place such a man in nomination we will refrain from placing an independent man in the field."

A. B. W. Hodges, general manager of the Granby Consolidated, has left for a two weeks' trip to the Queen Chariotte Islands, where he has some vrey promising mining claims under bond. He was accompanied by R. Wil-

lams of Rossland,

Services.

His operations in this new mining section are bringing important results in the way of aiding in establishing this sister camp in which. Rossland people are beginning to take considerable interest.

The extensive holdings of Very 10 and 10 are the power of the powe terest.

The extensive holdings of Mr. Warner additions of the town; a further sun in this and Sheep Creek camps, with his purposed plans of development, are destined, it is thought, to materially influence the metal production of the province.

Two of the managers of the leading local mines have recently made exhaustive examinations of the Sheep Creek camp and their opinion accords with those of leading experts, whose reports have led to heavy investments in the new section. It is a matter of congratulation that Rossland's mining opgratulation that Rossiand's mining operators, familiar with practical mining are represented in the Amalagaround. This, it was estimated, would mated Gold Mines of Sheep Creek, which will embrace, among its valuable.

SWIFT JUSTICE

METED SPORTSMAN

Titled Hunter Quickly Settles Score With Provincial Game Authorities.

Lord Lascelles of the suite of His Lord Lascelles of the suite of His Excellency the Governor-General, had an interesting example while here, not only of the vigilance of British Columbia game wardens, as described in Wednesday's Times, but of the swift and summary manner in which the formalities of the law can be carried out of occasion.

off occasion.

His Lordship through ignorance of provincial game laws, was guilty while in the north of shooting two deer and one mountain goat, and the fact was duly set out in the paper which Bryan Williams handed him in his room.

"Well, what am I going to do about it?" he asked when the official had given him the summons, and he had grasped its purport.

grasped its purport.

"You will have to appear in police court and answer the charge," the officer explained.

"But I'm going away to-morrow, and besides I don't want to go into police court. I had the fun all right, and I suppose I must pay for it."

Thus appealed to, Mr. Williams, thought of a quick way out of the difficulty. "Well," he said, "if your Lord-skip will plead guilty I fancy we can fix the matter up right here. I am a justice of the peace, and hence am able to try the case as well as lodge the information."

formation."

Thereupon the little room became a court, and Mr. Williams read the charge, the titled sportsmen pleaded guilty, and the court awarded a fine of \$25e with \$25 costs.

It was like a chapter of Begbie.

WILL INVITE EAGLES TO CONVENE HERE

Grand Aerie Will Be Asked to **Hold Next Session in** Victoria.

The regular meeting of the Fraternal Order of Eagles last evening was the first of the many social evenings they will hold during the coming months. Business was dispensed with quickly. Peter Shandley, the retiring past president, was elected to attend the Grand Acrie convention on September 13th at Omaha, Neb. He will invite the Grand Acrie to hold its next session in Vic-toria, and if he should be successful it would be a splendid thing for Victoria city in general and Victoria Aerie, No. 12, in particular,

The programme consisted of songs, recitations, club swinging and fancy dancing. J. M. Hughes recited "Curfew Shall Not Ring To-night," while Frank Le Roys rendering of the "Holy, City" was given in his usual good style, James Penketh danced the Scot-THE NEW GRAND.

The hypnotic sketch, "The Witch's style, James Penketh danced the Scottish Hornpipe and Brother Moody sange "No Wedding Bells for Me." Refreshments and ice cream and cake were served, when the meeting broke up after an enjoyable time.

VOUEL RICHERS BRANS BODS

SUBSTANTIAL, PLAIN, MASSIVE, ELEGANT-AND LITTLE PRICED

LET US SHOW YOU OUR SPLENDID VALUE, AT \$30

MAKERS of brass beds have learned much in later years. Brass beds are greatly better than they used to be. They are made to stand wear and they are substantial, plain, massive, elegant-little useless filigree work. If you never liked brass beds, you ought to like them now-ought to like these styles and values we show.

Prices on these beds are lower than they were 10 years ago. The values we offer are interesting—made so by our large purchases for eash. We don't claim to sell you a brass bed for less than you can buy a brass bed for elsewhere, but we do claim to offer you better value.

And it is value rather than price that influences the economically inclined—at least it should. Let us show you an excellent satin finished brass bed with 2-inch posts and lots of fillers. Priced at \$30 Dozens of Other Styles in Brass Eeds at From \$30 to \$120
